

Preparation for Marriage, Part 2

“Choosing a Mate”

- 1. Read Genesis 24:1-21.** Based on this Biblical example, what lessons may we learn about where to seek a wife? How to seek a wife? The role of prayer in seeking a wife?
- 2. Read Genesis 24: 50-67.** More of the story of Isaac and Rebekah. What lessons can we learn about the role of the family and of the father in forming a marriage? What about the attitude and character of Rebekah? Of Isaac? How much of this process was driven by emotions? By sensuality? By submission to God's direction?
- 3. Read Proverbs 31:10-31.** Here are some noble qualities to look for in a wife. How important is physical beauty? What qualities are important instead? Why?
- 4. Read I Thessalonians 4:1-8.** Consider these verses with the idea of pre-marriage relationships in mind. How could a courtship and engagement be handled in a way that would not violate God's standards.
- 5.** If you are married, how was it made clear to you that it was God's will for your to marry your spouse? What have you learned about discernment of God's will that could help someone else (perhaps your own son or daughter) who is considering marriage? How does Proverbs 3:5-6 apply to this subject?
